

LUXURY GOODS & CRYPTOCURRENCY SERVICES

LUXURY GOODS & CRYPTOCURRENCY

A New World of Commerce

→ The luxury good industry has started to capitalise on the estimated \$2trillion dollar cryptocurrency market.

Will you? Crypto is a revolutionary game changer when buying and selling high-end goods.

Bitcashier helps you facilitate any buyer/seller transactions while keeping each payment risk-free and without additional fee.

The future is now.

Sotheby's

A flawless 101 carat diamond was sold at auction for more than \$12.2 million in cryptocurrency.
The most expensive piece of jewellery ever sold through crypto, according to Sotheby's.

Luxury brands using NFT & blockchain technologies:

BVLGARI *Cartier*

Hublot is selling specific timepieces via Bitcoin.

How can we help you?

The Bitcashier payment platform allows you to process secure transactions in BTC or ETH without any fee.

Start selling your luxury goods with our encrypted transaction technology.

Sell Luxury Yachts

Sell Luxury Cars

Sell High End Watches

Sell High Value Jewellery

Why sell your luxury goods with Bitcashier?

At Bitcashier we believe that crypto transactions are the safest and cheapest way to monetise high-end goods. We offer safe and easy transaction solutions.

Risk free

We use the highest possible encryption

End-to-end encryption from the Bitcoin wallet to the cash transfer for the seller. The transaction is completely safe.

No fee

Avoid expensive fees from card companies

You can convert all collected coins into other assets and send them to a personal bank account or crypto wallet.

No cancelation

The buyer cannot cancel the deal at the last minute.

Once the transaction has gone through the deal is 'done' there is no opportunity for the buyer to walk away and 'cancel' the deal.

Flexibility

Transactions for full or part-value

Bitcashier can accommodate any transaction amount that you and your client agree upon.

Easy steps to selling your high-value goods

Example selling a £250K luxury car

You have a buyer for your car,
who wants to pay with
cryptocurrency.
You create an invoice on the
Bitcashier platform. A link and
a QR code are generated.

Your customer is presented
with a list of cryptocurrencies
they can use to pay for the car.

Bitcashier calculates the price
of the car in the chosen
cryptocurrency and provides
a payment option for the
buyer at a real-time rate. The
buyer sends cryptocurrency.

Get paid in your chosen
currency directly to your
bank account.
