Why Sell your products and Services with Bitcashier?

At Bitcashier we believe that crypto transactions are the safest and cheapest way to monetise high-end goods. We offer safe and easy transaction solutions.

Risk free

We use the highest possible encryption

End-to-end encryption from the Bitcoin wallet to the cash transfer for the seller. The transaction is completely safe.

No fee

Avoid expensive fees from card companies

You can convert all collected coins into other assets and send them to a personal bank account or crypto wallet.

No cancelation

The buyer cannot cancel the deal at the last minute.

Once the transaction has gone through the deal is 'done' there is no opportunity for the buyer to walk away and 'cancel' the deal.

Flexibility

Transactions for full or part-value

Bitcashier can accommodate any transaction amount that you and your client agree upon.

Easy steps to selling your high-value goods

Example selling a you are selling a €10M property

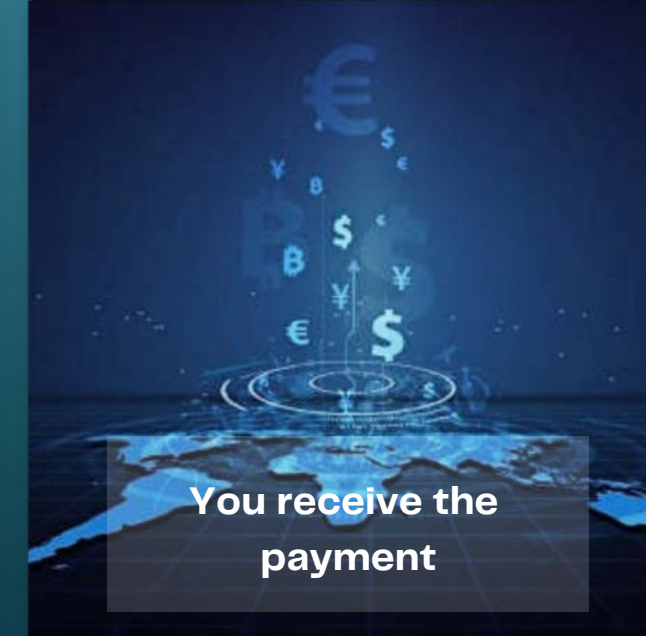

You have a buyer for the property who wants to pay with cryptocurrency
An invoice is created on the bitcoashier platform which generates a link and QR code

Your customer is presented with a list of cryptocurrencies they can use to pay for the diamond ring.

Bitcoashier automatically calculates the equivalent cash price of the property in chosen cryptocurrency and provides a payment option for the buyer at a real-time rate.

The buyer sends the cryptocurrency and you get paid in your chosen currency, directly to your bank account.
